Box No. V

Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability;
citations and explanations supporting such statement

October 1998

Document 3 sets forth a macrophagy activator containing pumpkin seed, safflower, *Plantago asiatica* and *Lonicera japonica* as active ingredients, therefore the invention of dietary supplements or functional foods set forth in claims 7 to 10 of this application lacks novelty and does not involve an inventive step.

Documents 1 to 11 do not indicate that the pumpkin seed, safflower, *Plantago asiatica* and *Lonicera japonica* set forth in claims 1 to 6 serve as a follicle-stimulating hormone releasing agent, and it would not be obvious to a person skilled in the art to constitute such as invention in this manner, therefore the invention set forth in claims 1 to 6 is novel and involves an inventive step.
